

120 9TH AVE S SUITE #110, NAMPA, IDAHO 83651	
+1-208-697-4417	info@becauseinternational.org

Dear Sir/Madam,

I've included this letter to help explain the product being shipped and the purpose of the product, in case it helps during the customs process.

This shipment contains sandals that have been designed and sent for humanitarian relief.

These sandals will be distributed to kids all around the world that either do not have shoes or do not have shoes that fit properly. We call the sandal "The Shoe That Grows." You can find more information about the sandal at <https://www.becauseinternational.org/>. The sandal has been designed to "grow" with the child as their foot grows, expanding in the front (toe area), sides, and back (heel area). The sandal "grows" 5 sizes. This solves a key issue for kids living in poverty. Kids grow quickly and need a pair of shoes that always fit properly, but may not always have access to them. A pair of shoes means more mobility, keeps kids healthy, keeps kids in school, and puts them in a position to succeed.

We distribute the shoes by sending them with groups that are travelling internationally, so they can take the shoes with them, and distribute them to children in need.

*These shoes are not for commercial purposes, nor for resale, and will be donated to kids in need.*

"The Shoe That Grows" was developed by a non-profit/NGO called Because International. You can find more information about us at [www.becauseinternational.org](http://www.becauseinternational.org). I have also included a copy of proof of our non-profit status.

Hopefully this helps better explain the product. The receiver of this shipment can provide more information regarding their organization and where they plan to distribute the shoes. If needed, I can provide more information about the product and our organization.

You can reach me at +1 (208) 697- 4417 or I am available by email at [brandon@becauseinternational.org](mailto:brandon@becauseinternational.org)

Thanks for playing a part in getting life-changing shoes to kids in need.
